

CODE: **AWZ590 v.1.0/I**  
 NAME: **LC8 8-Channel Distribution Module with housing**

EN\*\*

## DESCRIPTION

The LC8 8-Channel Distribution Module is designed for power distribution in CCTV systems requiring the voltage in the range 10V ÷ 30V DC. It is equipped with two power inputs: screw connection and DC jack 5.5/2.1 and eight AUX1 ÷ AUX8 power outputs. Additionally, the module's input is protected by a varistor, protecting the power supply against surges in the power supply system.

## SPECIFICATIONS

<b>Supply voltage</b>	10 V ÷ 30 V DC
<b>Current consumption</b>	1 mA ÷ 7 mA @ $U_{IN} = 10\text{ V} \div 30\text{ V DC}$
<b>Number of power inputs</b>	2: <b>DC jack 5,5/2,1</b> or screw connection
<b>Number of power outputs</b>	8 (AUX terminals)
<b>Optical indication</b>	Red LED – DC supply voltage indicator
<b>Operation conditions</b>	2nd environmental class, -10°C ÷ 40°C
<b>Dimensions</b>	126 x 78+16 x 42 (WxHxD) [mm] (+/-2)
<b>Mounting</b>	Mounting screws x2 (Ø4mm holes)
<b>Connectors:</b>	
- supply outputs	- screw connections $\Phi 0,51 \pm 2,05$ (AWG 24-12)
- supply inputs	- DC jack 5,5/2,1 - screw connection $\Phi 0,51 \pm 2,05$ (AWG 24-12)
<b>Net/gross weight</b>	0,16kg / 0,23kg
<b>Declarations, warranty</b>	CE, RoHS, 2 year from the production date
