2000 Series Addressable Optical Remote Indicator

AI2672

The AI2672 is a 2000 series, addressable remote indicator. It is used to repeat an alarm condition signalled from one or more devices for which the alarm LEDs on the devices may be obscured or not visible in plain sight. The AI2672 is fully programmable when using a fire panel (CIE) supporting 2000 series addressable protocol.
