

Product Data Sheet

DT953

950 Series analogue addressable high temperature sensor

General

The DT953 is an elegant, slim-line analogue addressable high temperature heat detector that provides exact temperature information to the fire panel. It is normally set to alarm at temperature levels of 90°C.

950 Series Temperature Detectors

The 950 series heat detectors use a low air-flow resistant case for good contact between the sensing thermistor and the surrounding air. Temperature is measured by a single thermistor that gives a voltage output proportional to the external air temperature. The signal is processed and transmitted to the control equipment.

Operating Principles

The 950 series temperature detectors have a common profile with optical and ionisation smoke detectors, but have a low airflow resistance case made of self extinguishing, white polycarbonate. To provide a device that operates in ambient temperatures of up to 50°C, the DT953 is recommended.

Unique Addressing

A unique, patented addressing method provides simple, user-friendly and accurate identification of monitor location whereby a coded card, inserted in the base, is read by any monitor as it is plugged in. All the electronic components are in the monitor, but the location information is held in the base. Addressing errors during maintenance and service are eliminated. Pre-coded and pre-numbered address cards are also available. These address cards simplify and speed up installation and commissioning.

Standard Features

- Passive base address
- Programmable slide-in address card
- Aesthetic design
- Multiple European approvals

DT953

950 Series analogue addressable high temperature sensor

Specifications

Operating voltage	17 - 28 VDC
Current consumption	
Quiescent	250 microA
Alarm	2 mA
Alarm indication (LED)	Red
Environmental	
Operating temperature (no icing)	-20°C to +70°C
Storage temperature	-30°C to +80°C
Relative humidity (non-condensing)	0 - 95%
Max. wind (continuous)	Not affected
IP Rating	IP53
Physical	
Size (H x Ø)	42 x 100 mm
Weight	105 g
Colour	White

Ordering Information

Part No.	Description
DT953	950 Series analogue addressable high temperature sensor
DB950	950 Series Standard Base
DB950R	950 Series Low Power Relay Base
DB955	Adaptor Base for 900 to 950 series
DB961	950 Series Isolating Base (20 devices)
